Professional Summary

Enthusiastic and detail-oriented IT professional with hands-on experience in Linux system administration, server management, and cloud computing (AWS SAA). Skilled in deploying, configuring, and maintaining Linux servers, troubleshooting system issues, and implementing cloud solutions. Eager to contribute technical expertise in Linux and AWS roles to support organizational IT infrastructure and cloud initiatives.

Technical Skills

- **Linux Administration:** Installation, configuration, and management of Linux servers (Amazon Linux, CentOS, Ubuntu).
 - **Server Management:** User/group management, permissions, process monitoring, and service management.
 - **Cloud Computing:** AWS (Certified Solutions Architect – SAA), EC2, S3, IAM, VPC, RDS, cloud resource optimization.
 - **DevOps Tools:** Git & Git Hub (version control basics, branching, pull requests), Jenkins (CI/CD pipeline), Docker (containerization), Terraform (Infrastructure as Code basics).
 - **Networking & Protocols:** TCP/IP, DNS, DHCP, SSH, firewalls, port management, Active Directory, DORA process.
 - **Email & Productivity Tools:** MS Outlook configuration, PST backup/restore, troubleshooting mail issues (POP, IMAP, and SMTP).
 - **IT Support & Tools:** Zoho ticketing, desktop maintenance, software installation, client support.
 - **Printers & Peripherals:** Installation and configuration of local and network printers.
 - **Scripting & Automation:** Shell scripting for routine tasks, process automation, and server maintenance.
 - **Troubleshooting & Monitoring:** LAN/WAN issues, system errors, server performance monitoring, log analysis.
-

Professional Experience

IT Engineer (Infrastructure Support)

Medi Assist Insurance TPA Pvt Ltd (Payroll: Prosol IT) | Apr 2025 – Present

- Provided end-user and infrastructure support for desktops, laptops, and applications.
 - Installed, configured, and supported Windows operating systems and enterprise applications.
 - Managed Active Directory user accounts and access-related issues.
 - Performed basic system monitoring and troubleshooting, aligning with Linux and infrastructure support practices.
 - Handled Zoho tickets, ensured SLA compliance, and maintained documentation.
 - Troubleshot network connectivity, printers, and Outlook-related issues.
 - Supported backup and restoration of Outlook PST files.
-

Hands-on Cloud & Linux

System Administration Lab

- Practiced Linux installation and system configuration
- Managed users, permissions, and services
- Performed disk usage and process monitoring
- Enabled SSH-based remote access
- Reviewed system logs for troubleshooting

Project: NetMaze – Multi-Tier Secure Data Processing Platform (AWS & Linux)

Role: AWS Cloud Engineer

Technologies: EC2, VPC, ALB, Auto Scaling Group, IAM, S3, Cloud Watch, cloud front, RDS, Lambda and SNS

Description:

Designed and implemented a secure multi-tier cloud architecture on AWS to ingest, process, and store data using Linux servers and managed cloud services.

Key Contributions

- Designed **VPC architecture with public and private subnets** for secure network segmentation.
 - Configured **Internet Gateway, NAT Gateway, and route tables** to control inbound and outbound traffic.
 - Deployed **Amazon EC2 instances running Amazon Linux** for application and processing layers.
 - Implemented **Application Load Balancer and Auto Scaling Group** to ensure high availability and scalability.
 - Configured **Amazon S3 with versioning and lifecycle policies** for secure and cost-efficient storage.
 - Created **Amazon RDS (MySQL)** database to store application metadata.
 - Developed **AWS Lambda integrated with SNS** for event-driven notifications and automation.
 - Implemented **Cloud Front CDN** to improve application performance and content delivery.
 - Automated file uploads using **cron jobs and AWS CLI**.
 - Applied **IAM roles and security groups** to enforce least-privilege access and secure infrastructure.
-

Certifications

- AWS Solutions Architect – Associate Training
 - Linux Administration Training
-

Education

- **Bachelor of Engineering – Civil Engineering**
SJM Institute of Technology | 2022 | Percentage: 70%
 - **PUC**
Shree Sharabhamba Independent Science PU College | 2018 | 78%
 - **SSLC**
BAPU College | 2016 | 88%
